

Resetting a Known Password

How do I change my default password to something easier to remember?

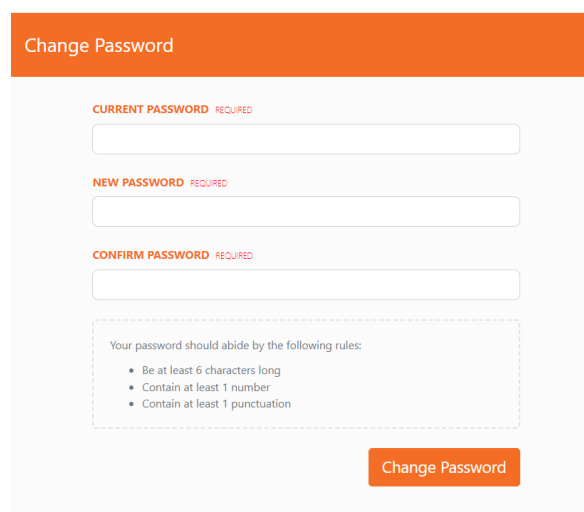

- [Log in](#) to your account
- Select **Manage Account**

- Select **Change Password**

- Enter **Current Password**
- Enter **New Password**
- Confirm **New Password**
- Click **Change Password**

A screenshot of the 'Change Password' form. It has an orange header bar with the text 'Change Password'. Below the header are three white input fields with orange labels: 'CURRENT PASSWORD REQUIRED', 'NEW PASSWORD REQUIRED', and 'CONFIRM PASSWORD REQUIRED'. Below the input fields is a dashed box containing the text 'Your password should abide by the following rules:' and a bulleted list: 'Be at least 6 characters long', 'Contain at least 1 number', and 'Contain at least 1 punctuation'. At the bottom right of the form is an orange button with the text 'Change Password'.

Please Note: You password should be at least **8 characters long** and contain at least **1 Capital Letter**, **1 Number** and **1 Special Character** (such as \$@!_)
